Free Joomla templates

Posted by joomtorial - 26 Apr 2009 16:39

Hi,

Free Joomla templates are available at: http://www.joomlaos.de/joomla_template_galerie.html

It has quite a lot of beautiful free templates available. By far not all come with PSD original graphic files. So, often free templates are a bit hard to adjust to your likings.

If you are looking for real professional templates that come with graphic files that are easily adjusted, so you can easily make the template look and feel like you desire, RocketTheme is THE best out there. Click here to go to RocketTheme

Another great resource for some superb free Joomla templates can be found here:

http://www.joomlashack.com/free-joomla-templates

Some of them are gorgeous!

Hi,

This is fairly easy, just a little bit different than it was ini Joomla 1.5 > see attached screenshot:
