

Is possible to reply?

Posted by meninadigital - 06 May 2009 18:55

Hi again,

I wonder if it is possible to reply to the news articles I post independently of the template type I use??

Hi,

Could you explain please? I do not understand your question.

Like a Blog where after each post a reader may send a comment to the article, is it possible to do this too or depends on what type of template I have installed?

Or is this a plugin function to make it happen this way?

I see what you mean.

It is not built into Joomla, but with an extension, there are several, this can be achieved very easily.

A few extensions for comments:

ChronoComments: <http://www.chronoengine.com/> JomComment: <http://www.azrul.com/>

JoomlaComment:
<http://compojoom.com/>

And many more
