When you want to use this code in Joomla, you can't simply use the WYSIWYG editor. You will need to

Learn Joomla with Video Tutorials by Joomtorial - Learn Joomla with Video Tutorials by Joomtorial Generated: 1 January, 2026, 17:14

go to Joomla's Global Configuration and set your editor to "No Editor". Only then paste the code from DreamWeaver otherwise your WYSIWYG Joomla editor will rewrite and leave important codes out.

created a working sample of this and that can be seen here: <a href="http://joomla15.joomtorial.com/index.ph">http://joomla15.joomtorial.com/index.ph</a> & amp; <a href="http://joomla15.joomtorial.com/index.ph">http://joomla15.joomtorial.com/index.ph</a>
Displaying org chart graphic with links? Posted by rob - 28 May 2009 20:14
Sounds like a plan!
Thanks!
