

## Erasmus University - Versatility III

Posted by pnut - 15 Jan 2009 03:35

---

A recent website for the Erasmus University Rotterdam. Site is to apply for Economics Exams Training program.

**Website URL:** <http://www.erasmusexamentraining.nl/>

**Additional Extensions:** JCE Editor, PromoLink, FacileForms, XMap Sitemap, Gmaps (for those completely new to Joomla extensions, please have a look here: <http://extensions.joomla.org>)

**Custom Development:** Custom development on Versatility was mainly to create new colors and a simple logo and footer modification.

**Additional Information:** The client and I have discussed the template to use and we agreed on using Rocket Theme's Versatility III template. For those of you who don't know Rocket Theme, please have a look here: <http://www.rockettheme.com>

It would be great to get some feedback on the website and what you might adjust or setup differently.
